

System Selected: PEX PIPE

PEX

Adhesive

EVOH

Product Overview:

Simply PEX Pipe is design to make UFH installers as easy as possible. The PEX pipe does not feature a aluminum layer making it a lot less rigid and more flexible then the MLCP alternative.

Our 16 PEX coils are readily available in 200m coils and 400m coils, The delivery on these items are available cross the country next day. Due to the lack of aluminum this pipe is not WRAS approved and can only be used for UFH purposes.

Product Specification

Color	RED
Specification	16x2mm
Coil Sizes	200m Coils And 400m Coils
Raw Material	DOWLEX 2388
Standard	Din 4726 EN ISO 22391-2:2009
MAX Sustained Working Temp	-40 ^o -60 ^o C
Max Transient Temp	70 ^o C
MAX Pressure	6 Bar
Construction	3 Layer EVOH
Application	Underfloor Heating
